BIG MANSFIELD RALLY IN LOWELL LAST NIGHT

Hon. Frederick W. Mansfield, candidate for governor of Massachusetts, arrived at city hall steps at 10.55 has evening, and as soon as he was able to remove his overcoat he told the several hundred staunch democrats who had patiently awaited him all evening, why they should make a change in the governorship of their state.

The night was too cold for an outdoor rally and this was realized early in the evening. No suitable hall was available, however, and a squadron of speakers, most of them of states wide renown, succeeded by their interest of the crowd until the principal exemption. Cadet band at opportune intervals played blood-tingling airs.

Essides the gubernorial candidate there were a number of other primitation.

In a brief announcement of the disaster today, the hay department gave no details or place. Presumably the fast little picket boat was on patrol duty and foundered in heavy sea or met with some accident.

Three bodies have been found and dusmuch as all the others are missing the havy department assumes that all were lost. With the casualty list the department made this formal statement:

"The navy department announces that on Oct. 30 the picket boat of the United States steamship Michigan- foundered. Apparently the entire crew were lost. The finding of the bodies of three of the crew and the fallure to find any other trace of the boat or its occupants leads the department to believe that all were lost."

The navy department made public the following crew list of the lost picket boat:

HOW BLANKETS VAN'S NORUB are sanitary, sweet-smelling and hygienically clean and will not irri-ORIGINATED We are indebted to Farley, Harvey & Co., Boston, for this: It was in the cold winter of 1340 that the blanket was first introduced. Its inventor, Thomas Blanket, was a Flemish merchant, who had settled in Bristof and had fallen from affluence to want. He and his wife, suffering from the intense cold by reason of scanly bodding and lack of fuel, searched for something to put on the bed to increase the warmth. They hit upon a piece of rough undushed cloth. That had suggested the manufacture of special bed covers of the same material and these articles to which he gave his own name, won him wealth. Another case of attempted larceny from Saunders' market in Gorbam street by attering checks was brought to the attention of Judge Earight in police court this morning when the police court this morning when the most of morning the police court this morning when william Zibel was arraigned on complaints charging him with drunk-enness and attempt to commit larceny. The defendant entered pless of not guilty to each complaint, but after the court had heard the evilvation of both sides he said: "Larceny is not near as bad as the periory they commit when they come here." Zibel was found guilty on both complaints and ordered to play a fine of \$12 on the charge of attempted fareeny, lentency being shown him owing to a plea made by his wife, and the case of drunkenness was placed on file.

At Saunders' market as well as at other large stores a check system is usef, the goods from the delivery clerk. Mr. Kelley held onto his man, however, and after a police officer had been summoned Zibel was taken to the police station where he was charged with drunkenness and attempt to commit larceny.

The testimony of the clerk who sold the goods, the cashier, who received the money, and Mr. Kelley, who had been on the lookout for people making crasures, was heard by the court who took little credence in the story told by the defendant who at first said he could not speak English, but when damaging testing

Judge Enright was going to impose a direct sentence after the testimony had been offered, but owing to the plea of the defendants wife, the man was allowed to go with a light sentence, but the next offender convicted of such an offense will get a direct sentence.

RAILWAY MEN'S ANNUAL

CONCERT AND BALL

One of the most successful social functions of the present season was the 25th annual concert and ball of Local 280, Amalgamated Association of Street and Electric Railway Employes of America, held at Associate hall last night. The popularity of the street railway men was never better demonstrated, for the place was taxed to its capacity and many who purchased tickets were not present.

The evening was spent in a delightful manner and the arrangements and general good time reflected much credit on the committee in churge of the affair. The interior of the hall was artistically decorated with American flags and vari-colored bunting, and the stage was framed in lattice work, with red buds and greenery clinging to the lattice. Pale sky-blue made a beautiful background for the stage, while a mammolt American flag occupied a preminent place.

An excellent concert program was carried out spring the event, after which duncing was enjoyed to music furnished by the Miner-Doyle orchestra.

furnished by the Miner-Doyle ofcnestia.

The musical program contained an overture by the orchestra, several cabacet numbers by the Honey Boy Fourisong, "The Summer Winds," by Miss Dorina Champagne; "The Sunshine of Your Smile," and selections from the Scotch by Commissioner James E. Donrelly, and "That's My Idea of You," by John F. Roane. regard to the war and said for this tenson, if for no other, the state should go democratic.

Edward F. Tettle of Rhode Island told of the effect which the result of the state election would have on Gormany and urged that the Teutons be shown that this state is backing up the administration at Washington. Congressman Peter Teague of Boston said that Gov. McCall would attempt to make the voters think that there were no issues in the present campaign.

"His has not come before you once," he said, 'to give an account of his stewardship. If this war is to be successful there must be men at the helm who have the interests of the people at heart. Such a man is Mr. Mansfield."

Avian Cousinau of Boston addressed the agthering alternately in English and French, and created a favorable impression in both tongues. He, too, pleaded for a backing of the president Humphrey O'Sullivan was introduced as a man "who did not intend to speak because of the physical conditions due to the strenuous campaign which he has been making the past few weeks, but who wants to say fust a parting word." Mr. Sullivan spoke briefly on the issues of the campaign and urged the support of the complete democratic ticket.

Mr. Mapsfield Speaks

It was nearly 11 o'clock when Candidate Mansfield's machine hove into view and he received a rousing recep-tion. Mr. Mansfield took up the issues of the campaign, one by one, and ana-yzed his opponent's stand or lack of stand, on them. His address was in

stand, on them. His address was in part as follows:
"Gov. McCall did more to ruin the hopes of future prosperity for the Merrimack valley people than any amount of financial disaster or hustness panic rould possibly have done. This bill was intended to deepen the Marrimack piper, from the green to of the state's treasury. Three and a half millions of dollars were to be raised by a thirty-year bond issue, which would have meant only about \$117,000 a year. This money was not to be spent until an equal amount was appropriated by congress. The bill had already gone through congress and had the approval and earn est support of Secretary of War Baker. Surely if it were necessary for war purposes to veto this measure Secretary of War Baker would not have approved it.

KIRK STREET DISCUSSION PRO-POSED UNION OF CONGREGA-TIONAL CHURCHES

THONAL CHURCHES

The proposed temporary or permanent union of several down town Congregational churches was ciscussed at considerable length at a receting at the Kirk Street church last night and it was voted to engage in proceedings with the other churches to promote their best interests, the following vote being passed unanimously:

"Be it resolved that we, the members of the Kirk Street church and parish, do hereby register our desire to engage in a consideration of the advisability of the union of some of the existing Congregational churches in the city, either temporarily or permanently, believing that some such union would minister to the best interests of the work of the same church ests of the work of the same church es."

losis was discovered to be a tiny parasite, a species of gern life that imbeds itself in the tissues of the body, especially in the soft structures of the lungs and this multiplies.

Like other parasitic growths it requires a suitable non-resistant soil for its livelihood and the most adaptable is in the poorly nourished, the under-fed, the overworked, and in those and by inheritance have that taint of the same at the fails to repail. Those who do not receive sufficient pure air, sufficient sunlight, or sufficient rest are in a condition to become infected. Certain of the trades, mainly dust-producing, are causes of the disease.

come intected. Certain of the trades of the disease.

There are two problems to face in combating tuberculosis. The first is to keep the germ from the reach of others by the proper disposal of sputum which, in an active case, is laden with the parasite.

The use of sanitary sputum cups and paper napkins, that are burned afterwards, are recommended for the slek, and the proper care of dishes and hands are important.

There are a number of people with incipient tuberculosis who have not yet been troubled by symptoms to the extent that they find it necessary to seek medical advice. Some of these are self-cured in the course of time but are, or were, a source of infection in proper-

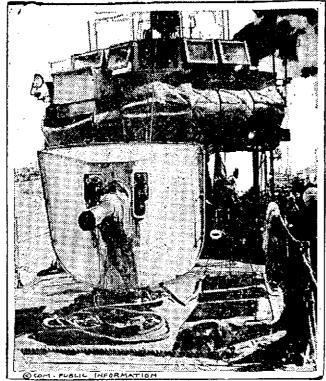

tion to the amount of sputum thrown off by the lungs.

The fingers are a great factor in the spread of the mouth secretions, and if they were always washed before being placed on foodstuffs or in the mouth, this method of spreading the germs would be done away with.

skating races ever seen in Lowell, Fred Connors, of Weymouth, last oright, won over Albert Nebes of Low-ell in a ten mile event at the Rolla-way rink on Hurd street. The race was the second of a series of three to de-termine the claim of eastern champl-on, and Connors by winning on Thurs-

termine the claim of eastern champlon, and Connors by winning on Thursday night and last night has a two point lead over the Lowell boy. The final race, a half hour special, scored by the Berlin system, a point for each mile, will be had tonight, and the indications point to one of the most thrilling races in years.

Last night's race was a nip and tuck affair from start to finish, and the winner was not determined until the final mile. With five laps to go, and horh men going at top speed. Connors, who was leading, fell as a result of striking one of the blocks, and it looked as if he were out of the running. Hardly had the Weymouth boy picked himself up when Nebes went down. Connors immediately took advantage of the situation and cut loose a sprint that brought him by Nebers and again into the itad, never to lose it. He crossed the tape about the race was very fast.

Connors, as on the previous night, won the toes, and he took the pole. At the sound of free gun, the Weymouth tyer jumped into the lead, but he sound of free gun, the Weymouth tyer jumped into the lead, but he conly held it momentarily. For Nebes was out to even up the score. Nebes remained in front for a half lap when Connors again forged into the first position. The lead shifted ten times in the first mile, but Nebes was setting the pace at the line. He held the lead for five laps in the second the lead for five laps in the sec

Thesday night will be "Camp Devens night" at Associate hall. Arrangements have been completed by which Company D basketball team, stars of the New York state league has season, will play Lowell Five upon that occasion, and the entire company will come to Lowell under command of Capt. Blown and Lieut. Shoott.

Company D men are confident that their team can take Lowell Five's measure. Basketball has been one of the most popular pastimes at Camp Devens, and it has been a pleasure to see the Company D quintet clean up all comers. Connors again forged moto ten times in the first nite, but Nebes was setting the pace at the line. He held the lead for five laps in the second mile, and with the men passing and re-passing each other several times. Connors was leading when the 2 miles had been negotiated. Connors maintained the lead in the third mile. In the fourth mile Nebes got cut in front and he made a desperate attempt to null away from his opponent, but comers.

Wilfred Barrette of this city had little difficulty in defeating Norman Taylor of Boston in the wrestling match held at the C.M.A.C. hall in Pawtucket street last night. Barrette pinned his opponent to the mat in 28 minutes for the first fail and the second fall was negotiated in five minutes. Harrette used the toe hold made famous by Frank Gotch, during the contest, but both falls were brought about by other methods. The first fall came as a result of a combination body and head hold while the second was brought about by a leg hold.

Harrette, an old time favorite in this city, it being about ten years affec he appeared on the mat in Low-ell, was the favorite, and he displayed remarkable skill. He is equally as clever with his legs as he is with his arms and this assisted him very match.

Monday, Nov. 5, for \$700,000 in New England.

Ground has been broken for another soldiers' club within the limits of the town just outside of the camp. This will call for an expenditure of \$50,000, and is also to be paid for by the warramp community fund. In anticipation of the gifts that are to come, Joseph Lee, member of the national council, induced the Ayer army service committee to have these projects underwriters reimbursed from the funds.

The new club, which will be completed by the end of this month, is located at West and Cambridge streets. It will be strictly an out and out men's club; secondly, a comfortable and chaperoned centre where the provepthal sweetheart, wife or mother, on arrival by train or automobile, may awalt her soldier and find a secluded, parlor where she may enjoy tea or tears in privacy.

Mrs. Nelle Libbey, department inspector, was present. It was reported that the fair recently held was a great success. As a whole the work of the auxiliary was very satisfactory. Commendatory remarks were made by the inspector for the good of the order, and Mrs. Libbey read the departments quarterly report of the women's relief work, which was most interesting. The meeting closed with the salute to the flags. 275 to 25.

GIVE SOMETHING ELECTRICAL THIS CHRISTMAS

This year there will be less exchanging of useless gifts than ever before. The slogan for Xmas, 1917, seems to be: "Give something useful." The utility, convenience and beauty of Electrical appliances are receiving due recognition and advance orders are already beginning to flow in.

You can find at our showrooms an appropriate and useful gift for everyone you intend to remember this Christmas—a chafing dish for sister—a reading lamp for father—and just think how an Electric Washing Machine would delight mother or wife.

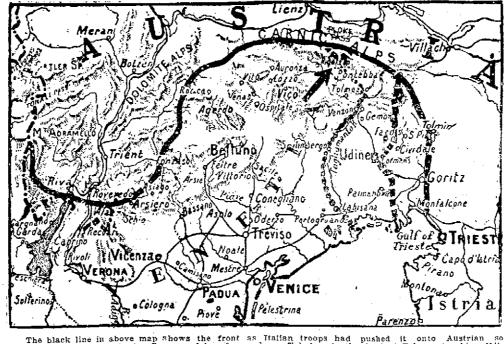

The demand for Thor Washing Machines is increasing daily. The best way to be sure of one for Xmas is to order it now. Then you will be sure of delivery and avoid a possible advance in price.

DAILY LIFE OF EVERY AMERICAN HANGS ON RESULT OF STRUGGLE IN NORTHERN ITALY

cable dispatches from Italy for the next

It is hard for the peaceful, easy-going American citizen to realize, but it is true that the manner of life of every man, woman and child in the Uni-

the nation's service. Is at this very minute being determined, 3500 miles away, by Italian troops.

Only two hattles of the war—the Marne and Vordun—equal the present struggle in importance.

There are three great turns which this decisive battle may take, each of which is fraught with enormous consequences.

First, Cadorna's army may be crushed. Italy overrun and cut to pieces. Second, Cadorna's troops, which are reported to be making an orderly effect, in may be able to stop Mackensen's drive by holding the prepared positions until the French and British have time

Third, Mackensen, in the ardor of pursuit, may outrun his lines of communication, just as Von Kluck did in the drive toward Parls, and give Cadorna a chance to administer a defeat comparable in many elements to the battle of the Marne.

In a week or two, we shall know which of these turns the battle will take. Let us, therefore, see just what the big effects of each of these possible eventualities on the progress of the war and our own plans will be.

We might as well face the blackest chance first. If Mackensen crushes Cadorna, overruns Ilaly, and destroys her effectiveness as a fighting nation, every American must steel himself for a prolonged war, in which the United States, will have to spend hundreds of thousands of lives and many billions of dellars before Germany can be crushed.

thousands of lives and many billions of dollars before Germany can be crushed.

With Italy crushed, the Austrian submarines operating from the Dalmatian coast, which have for more than a year been held under control by the Italian navy, would again resume their activity in the Medicerranean. protect the ships carrying grain and cotton from Egypt and the east, Britain would be forced to increase greatly her force of destroyers and patrols in the Mediterranean, and by so much weaken her Atlantic patrol, with grave menace to trans-Atlantic shipping.

With Italy crushed, or driven into the plains of the peninsula, Germany would be free to transfer huge numbers of effective troops to the Russian and Rumanian front, and push her conquest there to the point where she would cease to be menaced from that direction, leaving Britain. France, and the United States to be met with augmented forces on the strongly intrenched western front.

If Cadorna, however, can ston the Germans on any similar series of prepared intrenchments, until the allies can bring strong reinforcements, it may be possible to inflict such heavy losses on the massed Austro-German troops that it will be a victory gained at a cost as dear as the early advances at Verdun.

If, finally, Cadorna, in some way, which cannot now be foreseen any more than the turn at the Marne could be, should turn his defeat into victory and inflict severe losses on the Mackensen's forces, the effect in Germany would be tremendous.

PUBLIC AUCTION OF THE 21/2; STORY HOUSE, STABLE, AND 43,525 SQ. FEET OF LAND AT 183 WALKER STREET, AT ITS JUNCTION WITH WAUGH STREET

Wednesday, Nov. 7th, at 3 P. M.

On the day and hour above stated will be offered at public anction this property which presents remarkable and amusual apportunities for development. Situated in an attractive residential district, it is still within very easy distance of numerous manufacturing plants.

The property has an area of 43.525 square feel and has splendid street frontage on both Walker and Waugh streets which permits of its subdivision into individual lots to great advantage. There is no portion of the rity where apartments are in greater demand than in this. In addition, it is practically the last remaining available property of any size within the city limits providing railroad frontage on the main line trackage of the B. & M. railroad. For development for manufacturing purposes, this site, affording this extensive railroad frontage and proximity to the centre of the city, is ideal. The buildings are substantial but without improvements.

STRONG NEGRO DIVISION WILL GO TO FRANCE

Islant, especially that of the French Senégalese.

While the new American negro units will be commanded to a greater degree than ever before by men of their own race, 4the bulk of the officers will be white men. This is also true of the French and British and Italian negro battalions.

Uncle Sam has in the regular army four negro regiments which have been raised to war strength and now number close to 7000 men. Two are cavalery and two infantry. The cavalry are the Eleventh, of Carrizal fame, and the Ninth, of which an American general once said after seeing the famous French cuirossicrs, supposed to be track regiment of the world: "If I had to go 1000 yards through hell, I would rather have the Ninth cavalry back of me than anything I ever saw." The regular army negro regiments are officered exclusively by white Wost Pointers.

The following negro National Guard units are now in the federal service and officered exclusively by colored officers:

WASHINGTON, Nov. 3.—When the full strength of America's new army is ranged on the battiefront of France, negro troops will make up approximately one-eleventh of the men under the Stars and Stripes.

Although negro soldiers from Africa or the West Indies have fought in many European struggles, and followed some of the greatest commanders, from Hannibal to Napoleon, the America's condingent is by far the largest negro army ever mustered on European soil.

Since the beginning of the war both France and Britain have employed African troops on the western front. Their fighting record has been brilliant, especially that of the French Western front. MOVE TO RAISE DRAFT AGE TO FORTY YEARS

WASHINGTON, D. C. Nov. 3.—Shall the present selective conscription act be amended? Shall the ages of those subject to its operations be revised both upward and downward?

These are to be among the big questions argued as soon as congress assembles for its regular sersion in Becember. Congressman Julius Kahn has announced his intention of proposing an amendment to compet the registration of all citizens from 18 to 40 inclusive, giving America a reserve of 21, 800,000 to draw upon. The present ages are from 21 to 31.

The war department's original plan was for men from 18 to 25. There was objection to taking those who did not yet bave a vote, and congress amended the act to make it read from 21 to 40. Then there was objection that addependent families. So the present figures were finally reached.

Right after Kahn announced his intention of proposing an amendment in December, it was stated that Secretary of War Baker was opposed to anythange. Kahn wired back from California that at least part of his amendment was misunderstood. He does not mean that boys of 18 to 21 shall be sent into the trenches, but he does want them registered and given preliminary training, so that when they become 21 they will be ready to take their place in the fighting lines. He allos said that no man over 31 would be called for active service until those in the

lend your ear for a moment. Professional woman, business girl. Mother of the race! Are you eligible for military service? Are you ready to volunteer if Uncle Sam should decide to use you in a soldier's uniform? Can you lift 1000 pounds on your knee? Can you alke 25 miles without fatigue?

These and similar questions crop up, euggested by the statement of Dr. Dudley A. Sargont of Cambridge, Mass. president of the Sargent School of Physical Education, that "pound for pound the average normal woman in good health can endure more pain, discomfort and fatigue, and can expend more muscular energy, than the average man of similar condition."

There is only one logical question to follow such a declaration:

"Would women make good soldiers?"

"There seems to be no reason why, from the standpoint of physical endurance, woman should not make as good a soldier as a man," said Dr. Sargent. "They are more capable of withstanding hardship, cold, fatigue and discomfort.

"But do not misunderstand me," he

withstanding hardship, cold, fatigue and discomfort.

"But do not misunderstand me," he added emphatically. "I do not say that it would be a good thing to put women in the field as soldiers. It would be a very bad thing, for we can use them better in other ways.

"As far as their physical qualifications go, they would no doubt make as good soldiers as men. Hand-to-hand fighting is out of date; other kinds of strength are needed in trench warfare, and women could meet these requirements as well as the male sex should. The Russians have certain school authorities, and while Supt. School, not only expressed his own his M Bennett secretary Miss Life. I sold the men in the family strong in the legs and ankles.

"All this is not the same as saying that women are actually stronger than men. That is not true. Remember are true," I asked Dr. Sargent, "are their strength, and unfitting themselves to be wives and unfitting themselves. "All this is not the same as saying that women are actually stronger than men. That is not true. Remember that women are actually stronger than men. That is not true. The walls of the First Congregational Church of Newton survived one of the worst fires in the history of that city-because its walls were covered with genuine Kellastone (Imperishable Stucce.) Cold water from the fireman's lose turned full force on the baking hot building failed to crack the surface. For Kellastine is composed of the most fire-resistant, water-proof, clustic material

And furthermore—Kellastone is not mixed with water, but combined with a special mixing compound which itself renders fire proof all wood it saturates. Is there my wonder that the fire-resisting properties of benatiful, economical Kellastone are not surpassed by brick, stone or tile?

KELLASTONE may be applied at any time, in any weather, even in below zero temperature.

In every climate, on buildings of every type, in factories, schools, hospitals and U.S. Government buildings Kellastone has demonstrated its ability to overcome the defects of other stuccos and the drawbacks of other exterior building material.

Let us send you our illustrated book, "The Story of Kellastone," which will show you why Kellastone does not crack, check or fall off, how it resists fire, water and weather and the results of changes in temperature. It will be to your profit to know about it.

The housing program proposes that the national government appropriate \$100,000,000 for erecting or aiding in the erection of houses for workers appropriate in making war precessaries.

engaged in making war necessaries This sum is based on the rough cal-culation of housing an equivalent of families at a cost of \$2500

Prices would be fixed for boarding house charges, somewhat as Great Britain has done under her billeting act.

In the proposed fixing of low rentals, calculation would take into account local conditions without relation to the cost of the houses.

Three types of houses either to be built or else financed by the government, have been recommended:

(1)—Single family dwellings whether built in units of two, three or four houses;

These three plans have been suggested for administration of fund:

1—The money would be made available to manufacturers who are in a position to quickly undertake a housing development.

NEW OIL FOR OLD Ir you want to keep a new motor like

new, or an old motor from getting older, give it new oil. The best of oil gets dirly when left long in a motor, and replacing it with fresh will be most welcome to the motor. At the bottom of the crank case you will find a plug which may be unserewed, allowing the old oil to drain off. Replace the plug and pour a pint or more of kerosene in the oiling system. Then, leaving the unition turned off, turn the motor over a few times with the starter or the erank, so that all the passages of the ciling system may be thoroughly cleansed. Then allow the dirty kerosene to run off, replace the ping and re-all the oiler with clean, fresh oil. It this process is repeated every two thou-and miles-or oftener-much motor-trouble will be avoided.—Milestones.

HOW. BLANKETS

ORIGINATED

We are indelted to Farley, Harvey & Co., Boston, for this:

It was in the cold winter of 1340 that the blanket was first introduced. Its inventor, Thomas Blanket, was a Flemish merchant, who had settled in Bristol and had fallen from affluence to wart. He and his wife, suffering from the intense cold by reason of scanty bedding and lack of fuel, searched for something to put on the bed to increase the warmth. They hit upon a piece of rough unfulshed cloth. That had suggested the manufacture of special bed covers of the same material and these articles to which he gave his own anne, wen him wealth.

Judge Enright is determined that this practice of altering checks must be stopped and the next person brought before him for such an offense will be given a direct sentence. According to the testimony offered Zibel entered Saunders' market last night and ordered beef to the value of 97 cents and pork to the amount of \$2.58. After taking the two checks it is alleged that he erased the \$2 from the \$2.58 check and paid Miss Catherine Jones, one of the cashlers, a check calling for 97 cents and another for 58 cents. After the payments had been made. Mr. Henry P. Kelley, one of the foremen at the store, who has been on watch for those who have been altering checks, suspecting Zibel, called his attention to the fact that an erasure had been made and asked for the checks. During the conver-

CONCERT AND BALL

One of the most successful social functions of the present season was the 25th annual concert and ball of Local 280, Amalgamated Association of Street and Electric Railway Employes of America, held at Associate hall last night. The popularity of the street railway men was never better demonstrated, for the place was taxed to its capacity and many who purchased itchests were not present.

The evening was spent in a delightful manner and the arrangements and general good time reflected much credit on the committee in charge of the affair. The interior of the hall was artistically decorated with American flags and vari-colored bunting, and the stage was framed in lattice work, with red buds and greenery clinging to the lattice. Pale sky-blue made a beautiful background for the stage, while a mammoth American flag occupied a prominent place.

An excellent concert program was carried out during the avent, after which dancing was enjoyed to music furnished by the Miner-Doyle orchestm.

PHILADELPHIA, Nov. 3.—With a warning that inflation already had begun, A. C. Miller, member of the federal reserve board, told the national conference on innancing the war here today that American business must not undertake to carry the war as an "extra," but must exercise the vision and imagination necessary to see the great imagination necessary to see the great changes in economic organization es-

changes in economic organization essential to victory.

Mr. Millor pointed to the increase the federal reserve bank investments as evidence of the existence of inflation, partially responsible for the rise in commodity prices since the United states went to war, and declared that states went to war, and declared that if this increase continued it was not if this increase continued it was not unreasonable to expect that before long unreasonable to expect the research that the long that the lo

"Whether a similar result is to be expected here in connection with our greater government borrowings and if so how soon, will largely depend upon whether all the people who have income enough to save, will save, or whether they can be or will be made to save out of their incomes to absorb such loans of the government as may be put out in excess of the current savings fund of the nation."

Estimating the annual actual savings of the American people at fifteen billion dollars, Mr. Miller suggested that 12 billion would be left to absorb loans after deducting three billions for the coming year aggregate some 20 billion, he said, five billions must be added to the nation's savings if the war's expenses are to be met.

Mr. Miller stated his opinion that it would require all of the economic resources of the country to win the war.

"I have it on competent authority."

SIR GEORGE H. REID, FORMER PREMIER OF AUSTRALIA, SPEAKS

WASHINGTON, Nov. 3.—Germany is putting 14.3 soldiers into the field for the same amount of money which the United States is paying for a single fighting man, according to calculations today of government experts. They said the same general proportion was true also of maintaining the armies in the fild or in other words. America must raise \$14.30 where the enemy nations raise only \$1 for the purpose of carrying on the war.

The difference was said to be due to the higher pay of United States soldiers and the greater cost of supplies in this country.

Rt. Rev. Monsignor M. J. Splaine, D. D.; Henry V. Cunningham, Esq., and Francis E. Slattery, Esq., have made the following self-explanatory denial of the allegation brought forth by certain delegates to the constitutional convention in defense of their advocacy of the Anti-aid bill.

"Our attention has been called to a statement in today's newspapers signed by Mr. Francis P. Garland with relation to the Anti-Aid amendment so-called containing reference to a consultation with the undersigned.

"Acting for the Catholic federation of the archdlocese of Boston we appeared before the committee on bill of rights at its hearings to protest against all the proposed amendments. At the conclusion of the proponents case we were ready to go forward, but were informed by the chairman and others of the committee that our possed amendments which was well known to all and stated clearly several times at legislative hearings.

"This attitude, during all the years of the agination has always been distinct opposition to any change in the constitution which would limit the power of the legislature to make appropriations for institutions of learning or benevolence.

"Acting upon the above suggestion of the chairman and others," of the committee wo advised together as to what action we should take with reference to presenting our case at further the rearings before the committee. Another member of the committee. The result of our conference was to send the following letter:

Editor Lowell Sun, Lowell, Mass.

Dear Mr. Editor: For the convenience of citizens of Lowell and vicinity who may be interested in cases pending before the superior criminal court, it is my purpose to be with one or more of my assistants, at the court house in Lowell just prior to the beginning of each term, in order to give interested parties an opportunity to have their cases examined if they so desire.

For the coming term of court, Friday morning, November 9, from 9.30 to 11.30 o'clock hay been assigned for examination of Lowell cases.

Yours very truly.

This contest seems the shortest of the three carried on by The Sun. It has been as satisfactory as the preceding contests.

three carries on by the same the preceding contests.

Considering the many attractions and calls that have been made upon the public this fall, it is wonderful that so many would sit down and write these hundreds of Jingies that have been coming to the Sun office the past weeks.

This week, there came with a bunch of Jingles signed "See Gee," a-rommunication stating that "See Gee" had won prizes for the past four consecutive weeks and was hoping to win one or more for the two more weeks remaining in the contest. Jenny Wren has been looking up "See Gee's" record and finds that this person has written for all three contests and till this contest has had but one Jingle printed and that was in the first part of the first contest.

Jenny Wren is glad of this reminder, for it simply proves what she has so often said to her Jinglers, that if they will only persevere they will be prize winners.

"See Gee" stands a fine chance of

Respectfully libels and represents Fortini Filipopoulos, of Lowell, in said County, that she was lawfully married to George Filipopoulos, now of parts unknown, at said Lowell, on the thirteenth day of February, A. D. 1914, and thereafterwards your libellant and the said George Filipopoulos lived together as husband and wife it. this Commonwealth, to wit, at said Lowell; that your libellant has always been faithful to her marriage dows and obligations, but the said George Filipopoulos being wholly regardless of the same, at said Lowell, on or before July 11th, 1914, did utterly desert your libellant and has continued such for more than three consecutive years prior to the filing of this libel.

Your libellant further says that there has been one child born of this marriage, namely, Christina Filipopoulos, aged three (3) years minor. Wherefore your libellant prayed that a divorce from the bonds of marimony may be decreed between your libellant and the said George Filipopoulos and that the custody of said minor child may be decreed to your libellant.

dications point to one of the most thrilling races in years.
Last might's race was a nip and tuck, affair from start to finish, and the winner was not determined until the finial mile. With five laps to go, and both men going at top speed, Connors, who was leading, fell ws a result of striking one of the blocks, and it looked as if he were out of the running. Hardly had the Weymouth boy picked bimself up when Nobes went down. Connors immediately took advantage of the situation and cut loose a sprint that brought him by Nebes and again into the lead, never to lose it. He crossed the tape about five yards to the good, and the time of 25 and one-half minutes, shows that the race was very fast.

warning that inflation already had begun, A. C. Miller, member of the federal reserve hoard, told the national conference on financing the war here today that American business must not undertake to carry the war as an "expensive the manual parts of the manual parts tra," but must exercise the vision and imagination necessary to see the great changes in economic organization es-

changes in economic organization essential to victory.

Mr. Miller pointed to the increase in federal reserve bank investments as evidence of the existence of inflation, partially responsible for the rise in commodity prices since the United States went to war, and declared that if this increase continued it was not unreasonable to expect that before long the reserve system would be made into a great engine of banking inflation. He explained the process by which enormous inflation has been caused in Germany, and France, through govern-

on in Boston yesterday for short heel cords.

Thayer, before he went to France as an ambulance driver, was turned down for the army and also by the United States surgeons in France when they took over the ambulance corps. He then sought to enlist with the fighting force there but was rejected. He immediately came to this country and found that by having an operation from the effects of which he caunot recover for four months. he could in all probability be passed.

BIG RALLIES BY BOTH

BOSTON, Nov. 3 .- The campaign for BOSTON, Nov. 3.—The campaign for the state election next Tuesday will be practically wound up with republican and democratic rallies in this city tonight. At Tremont Temple addresses in behalf of the re-election of Gov. McCall will be delivered by the governor, Senators Lodge and Weeks and Lieul. Gov. Calvin Coolidge. Democrats, gathering at Faneuil hall, will listen to addresses by Frederick W. Mansfield, their nominee for governor: Carl Vrooman, assistant secretary of Carl Vrooman, assistant secretary of agriculture and Senator Henry F. Hollis of New Hampshire.

bold.

Barrette, an old time favorite in this city, it being about ten years sluce he appeared on the mat in Lowell, was the favorite, and he displayed remarkable skill. He is equally as clever with his legs as he is with his arms and this assisted him very materially in bringing about victory. Taylor, who was ten pounds heavier than Barrette, is a scientific wrestler and put up a good battle during the early part of the contest, but the repeated working of the toe hold by Barrette worried Taylor. After the first fall Taylor limped to his chair, the working of the toe-hold by his opponent having much effect on him. He said he had not wrestled in matches with the toe hold allowed, and would like to meet Barrette in a match with such hold harred. In the opener, Kid Desvosiers of the Y.M.C.A., and Louis Pappus wrestled a 15 minute draw. Both wrestlers showed good limber, and the crowd clamored for a finish match at some future time.

AYER, Nov. 3.—Before the snow files the soldiers at Camp Devens will have an Army Service club in this town within 200 yards of the railroad station ind in the heart of the town. It will and in the heart of the town. It will be the soldiers "own" club, directed by them, policed by them with the entertulnment of their making. It will cost when finished upward of \$40,000 and will be paid for out of the war camp community fund which begins its drive Monday, Nov. 5, for \$700,000 in New England.

Monday Nov. 5, for \$700,000 in New England.
Ground has been broken for another soldiers club within the limits of the town just outside of the camp. This will call for an expenditure of \$50,000, and is also to be paid for by the war camp community fund. In anticipation of the gifts that are to come, Joseph Lee, member of the national council, induced the Ayer army service committee to have these projects underwritten and later have the underwriters reimbursed from the funds.

The new club, which will be completed by the end of this month, is located at West and Cambridge streets. It will be strictly an out and out men's club; secondly, a comfortable and chaperoned centre where the proverblai sweetheart, wife or mother, on arrival by train or automobile, may await her soldier and find a secluded parlor where she may enjoy tea or tears in privacy.

GIVE SOMETHING **ELECTRICAL** THIS CHRISTMAS

This year there will be less exchanging of useless gifts than ever before. The slogan for Xmas, 1917, seems to be: "Give something useful." The utility, convenience and beauty of Electrical appliances are receiving due recognition and advance orders are already beginning to flow in.

You can find at our showrooms an appropriate and useful gift for everyone you intend to remember this Christmas—a chafing dish for sister—a reading lamp for father—and just think how an Electric Washing Machine would delight mother or wife.

The demand for Thor Washing Machines is increasing daily. The best way to be sure of one for Xmas is to order it now. Then you will be sure of delivery and avoid a possible advance in price.

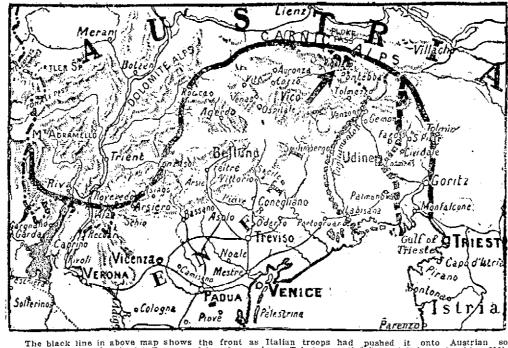

Come in and see our display.

DAILY LIFE OF EVERY AMERICAN HANGS ON RESULT OF STRUGGLE IN NORTHERN ITALY

The black line in above map shows the front as Italian troops had pushed it onto Austrian soil; blocked line marks the Austro-German drive from above Tolmino to the Gulf of Trieste, touching Udine. The dotted line along the Tagliamento river is probably where Italy will make her next determined stand against the German drive. The arrow points to Ploceken pass through which Teutonic troops have poured, threatening the mark of Gen. Cadorna's forces.

The Special to The Sun

WASHINGTON, D. C., Nov. 3.—The cable dispatches from Italy for the next two weeks will carry the most important news Americans have read since to we declared war, in the opinion of authorities in Washington.

It is hard for the peaceful, easy-goling American citizen to realize, but it is true that the manner of life of every man, woman and child in the United States, for years to come, the sacrifices they will be called upon to make, the number even who will be called upon to give up their lives in the nation's service, is at this very minute being determined, 3500 miles way, by Italian troops.

Only two battles of the war—the Manne and Verdun—equal the present Struggle in importance.

There are three great turns which this decisive battle may take, each of which is fraught with enormous consequenced to the present struggle in importance.

The regular inceting of James A. farfield Reliaf corps was held Thurstay night. During the aftenoon a whisarty was held and in the evening the

party was held and in the evening the usual supper attracted a large number. Following the supper came the business meeting which was presided over by Mrs. Elvira G. Flanders. Mrs. Nelle Libbey, department inspector, was present. It was reported that the fair recently held was a great success.

As a whole the work of the auxiliary was very satisfactory. Commendatory remarks were made by the inspector, for the good of the order, and Mrs. Libbey read the departments quarterly report of the women's railer work, which was most interesting. The meeting closed with the salute to the flag.
